

Efficiency Through Technology

LOH & LOH

Ready when you need us

Our quarry division provides the raw material for construction

Meet our fleet

Another of our strengths is having our own extensive and latest fleet of machines: excavators, articulated trucks, cranes, bulldozers, roller-compactors etc.

These are regularly maintained and serviced by a team of highly trained and experienced mechanics in our two well-equipped workshops in Nilai and Kuching. Our resources are ever charged, ready and raring to go.

Scheduled maintenance is a must to assure the availability and efficiency of equipment

We always believe in doing projects ahead of schedule, and have the equipment to do it.
